

****FOR IMMEDIATE RELEASE****

Saratoga County, NY Awards Black Creek Contract to Install Sallyport® Jail Management System

INTERIOR OF SARATOGA COUNTY CORRECTIONAL FACILITY

Birmingham, AL – February 29, 2016 - Black Creek has been awarded a contract to install its [SallyPort®](#) Jail Management Software (JMS) in the Saratoga County Correctional Facility. The jail is a 255-bed facility located in Ballston Spa, New York. Saratoga County is now connected to Black Creek's SPIDEX© (SallyPort© Inmate Data Exchange) network of 34 New York Jails – which allows those agencies to send and receive inmate information between linked facilities

SallyPort® is a full-featured electronic inmate records management system designed for city and county jails that accurately maintains inmate records with the capacity to meet or exceed all mandatory requirements of any state or jurisdiction.

The installation of the JMS will save the jail money by decreasing the administrative time needed to manage inmate records. SallyPort® provides an array of features that you would expect to find in a sophisticated jail management package, including shift log, digital imaging, medical tracking, biometric identification, DNA sample tracking and much more.

In the near future, Black Creek will also be installing its [Super Display® Touchscreen Security System](#) and providing its [Personal Detention Assistants™](#) (PDAs) which will be integrated with the new JMS. This will make Saratoga County fully integrated with inmate records, thus improving the safety of staff and visitors. The system upgrade will make security control easier and save the facility money by decreasing maintenance costs and increasing staff efficiency.

More about Black Creek ISC

Black Creek Integrated Systems is a turn-key source for modern, touchscreen-based, correctional facility security control systems and security management software solutions that reduce the cost of corrections. Black Creek focuses only on the corrections market – installing integrated security and records management solutions in jails, prisons, courthouses and government facilities across the nation.
