Jefferson County, AL Awards Black Creek Security Controls Upgrade

Jefferson County Jail, Birmingham, AL

Birmingham, AL –October 25, 2019 – Jefferson County has awarded Black Creek the project to upgrade the existing Security Control System at the Jefferson County Jail located in Birmingham, AL. Black Creek has been working with the 1,247-bed facility since 2004.

The scope of the work will involve replacing the existing Video Recording and Management software with a Bosch system, furnishing and installing new video encoders to digitize video from existing analog cameras, and upgrading the video storage network and array. In addition, all security system computers and servers will be upgraded to the Windows© 10 operating system and the latest Black Creek software version, and a new GE PACSYSTEMS™ RX3i PLC system for control and annunciation of doors, intercoms, and other security devices will be implemented. The upgrade will enable optimal performance of the touchscreen and CCTV systems and will ensure the system will be compatible with future IP camera replacements.

More about Black Creek ISC

Black Creek Integrated Systems is a turn-key source for modern, touchscreen-based, correctional facility security control systems and security management software solutions that reduce the cost of corrections. Black Creek focuses only on the corrections market – installing integrated security and records management solutions in jails, prisons, courthouses, and government facilities across the nation.
