Black Creek Awarded ACTS[®] Transitional Strategy Software Contract for Jacksonville, Florida D.O.C.

The Jacksonville, Florida Pre-trial Detention Facility

Black Creek is pleased to announce that it has been awarded a contract to provide ACTS[®] Transitional Strategy Software to the Jacksonville Sheriff's Office Department of Corrections. The Florida facility is one of the largest maximum security jails in the country, with a rated capacity of 2,189 beds. The facility houses a mix of sentenced and pre-trial individuals.

More about the Jacksonville Sheriff's Office Department of Corrections

The Jacksonville D.O.C. is nationally recognized as one of 14 innovative correctional organizations participating in the advancement of the National Institute of Corrections/Urban Institute Transition from Jail to Community Initiative. ACTS[®] is the only software designed to accommodate and measure all aspects of this initiative. The installation

will include the ACTS[®] Comprehensive Planning and Evaluation Software Suite, user licenses and training. The infrastructure of ACTS[®] uniquely facilitates information sharing among stakeholders within the jail and community. Additionally, Jacksonville Reentry Center (JREC) counselors will be facilitating targeted delivery of transition services in the community with the tools that ACTS[®] provides.

More about ACTS[®] Recidivism Software

ACTS[®] software was a joint development project between Black Creek Integrated Systems and Corrections Partners, Inc. It is the first system of actuarial assessment and case management that can be integrated fully with your jail management system that offers an array of system and individual reports, quality assurance tools, and structured plans for transition intended specifically for incarcerated populations. ACTS[®] puts information at the fingertips of administrators, officers, practitioners, therapists, and policy-makers alike to ensure that the actions they take relative to their correctional policy and practice lead to the most productive and cost efficient outcomes. ACTS[®] is the software suite designed by corrections professionals for corrections professionals and is designed with the flexibility necessary to ensure that its application within your county meets and is specific to your needs.

More about Corrections Partners

Corrections Partners offers specialized services and software that facilitates successful jail transition and system reentry efforts. The Corrections Partners suite of services assists jails in developing the leadership and culture necessary to implement Evidence-based Practice within the correctional environment. The mission of Corrections Partners is to reduce the amount of public money spent on corrections while increasing organizational efficiency and measurable system outcomes.
