Black Creek Signs with the U.S. Department of Homeland Security to Become IMAGE Certified

MAY 13, 2013

Black Creek Integrated Systems is pleased to announce its IMAGE Certification via the U.S. Department of Homeland Security. Scherry E. Douglas, Assistant Special Agent in Charge for Immigration and Customs Enforcement, visited Black Creek's Irondale campus this April to officiate the agreement. IMAGE Certification is granted to select businesses who qualify. This entails a series of rigorous audits and compliance guidelines that demonstrate adherence to U.S. Immigration standards. Black Creek Integrated Systems Corp. is the only corrections-focused security control and software management company currently enrolled in the IMAGE Partner certification program.

Black Creek will offer ongoing feedback to the IMAGE division of the U.S. Department of Homeland Security as part of its ongoing commitment to contribute to the program. Additionally, Black Creek agrees to adhere to the "Best Employment Practices" outlined by IMAGE. This includes using the government E-Verify system, using the SSNVS for wage reporting purposes and conducting periodic Form I-9 audits. These measures will formalize compliance with the Department of Homeland Security and will also provide a high level of assurance to government agencies regarding Black Creek's commitment to exceptional employment.

MORE ABOUT BLACK CREEK ISC
Black Creek Integrated Systems is your turn-key source for modern, Touchscreen-based, correctional facility security control systems and security management software solutions that reduce the cost of corrections. Black Creek focuses only on the corrections market – installing integrated security and records management solutions in jails, prisons, courthouses and government facilities across the nation. MORE ABOUT IMAGE
In an effort to curtail the employment of illegal aliens, the U.S. Department of Homeland Security established the IMAGE program (Mutual Agreement between Government and Employers) in July of 2006. This program assists employers in their endeavor to create a more secure and stable workforce. Additionally, the program is a resource for employer training regarding fraudulent documentation awareness. Learn More about IMAGE >
