

****FOR IMMEDIATE RELEASE****

Clinton County, NY Sheriff's Office Upgrades To Black Creek's Personal Detention Assistant[®] Handheld Mobile Devices

Clinton County Sheriff's Office, Plattsburg, NY

Birmingham, AL – February 1, 2016 – Black Creek has been awarded a contract by the Clinton County Sheriff's Office to upgrade the existing Black Creek Touchscreen Security System at the 300-bed Clinton County Jail located in Plattsburg, New York. The upgrade will incorporate Black Creek's Personal Detention Assistant[®] (PDA) Handheld Mobile Devices.

The 10", tablet-based PDAs will perform all security control functions including door control, intercom communications, CCTV camera monitoring, utility control, inmate movement

tracking, watchtour recording and electronic shift log entry and will be fully integrated with Black Creek's **SallyPort[®] 4.0** the facility's jail management system.

Per Clinton County Sheriff David Favro, *"This will make direct supervision of the facility much more efficient as officers will have complete wireless dayroom control functionality and will not have to remain "tethered" to their control stations, facilitating more interaction with inmates in accordance with the direct supervision model."*

More about Black Creek's PDAs[®]

The deployment of the Black Creek PDA[®] in correctional facilities has proven invaluable to staff and provides greater versatility for the officer. The PDA[®] is capable of completely replacing the fixed touchscreen control station typically installed in a direct supervision housing unit by wirelessly providing all required control and communications functions.
