Montgomery County, NY Awards Black Creek Contract to Install Sallyport® Jail Management System

Birmingham, AL – May 26, 2016 - Black Creek has been awarded a contract to install its [SallyPort®](#) Jail Management Software (JMS) in the Montgomery County Correctional Facility. The jail is a 168-bed facility located in Fultonville, New York. Montgomery County is now connected to Black Creek's SPIDEX© (SallyPort© Inmate Data Exchange) network of 35 New York Jails – which allows those agencies to send and receive inmate information between linked facilities

SallyPort® is a full-featured electronic inmate records management system designed for city and county jails that accurately maintains inmate records with the capacity to meet or exceed all mandatory requirements of any state or jurisdiction.

The installation of the JMS will save the jail money by decreasing the administrative time needed to manage inmate records. SallyPort® provides an array of features that you would expect to find in a sophisticated jail management package, including shift log, digital imaging, medical tracking, biometric identification, DNA sample tracking and much more.

More about Black Creek ISC

Black Creek Integrated Systems is a turn-key source for modern, touchscreen-based, correctional facility security control systems and security management software solutions that reduce the cost of corrections. Black Creek focuses only on the corrections market – installing integrated security and records management solutions in jails, prisons, courthouses and government facilities across the nation.
