## **Newport News, VA Awards Black Creek Contract to Install New Cameras**

Newport News City Jail, Virginia

Birmingham, AL – April 1, 2016 – Newport News, Virginia has awarded Black Creek Integrated Systems with a contract to install 100 new cameras at the Newport News City Jail. Black Creek has been working with the city since 2015 when it installed its Super Display® Touchscreen Security System at the jail.

The scope of the work will include installing 100 new cameras, furnishing and installing a new iSCSI storage drive to expand existing recording system to store 28 day's worth of 24/7

recordings, while providing programming and integration services allowing call-up and video display.

Black Creek's Correctional Closed Circuit Television Systems extend the "eyes" of the control room officers by utilizing state-of-the-art, solid state IP cameras for signal transmission. An array of security cameras are displayed in user-configurable display formats on Black Creek's brilliant LCD high-res touchscreen monitors and can also be accessed over the internet by authorized users.

All CCTV feed is recorded 24 hours a day, 7 days a week on Black Creek's Network Video Recorders for a timespan designated by the facility. Authorized personnel can burn selected footage to DVDs in industry-standard format or can opt to use tamper-revealing security for evidentiary purposes.

Black Creek's CCTV systems are integrated with other subsystems to provide a more efficient and seamless operation with minimal staffing requirements. Your Black Creek CCTV can be networked to intercom, personal duress, access control, locking and perimeter security detection systems to provide event-based automated video footage.

### **More about Black Creek ISC**

Black Creek Integrated Systems is a turn-key source for modern, touchscreen-based, correctional facility security control systems and security management software solutions that reduce the cost of corrections. Black Creek focuses only on the corrections market – installing integrated security and records management solutions in jails, prisons, courthouses and government facilities across the nation.
