Birmingham, AL – October 28, 2016 - Black Creek successfully concluded its 15th Annual SallyPort® User's Group (SPUG) and SallyPort® Medical User's Group (SMUG) Conference. The three-day meeting took place at the Inn on the Lake in Canandaigua, NY and was attended by over 80 participants across 30 New York counties.

Held annually, the SPUG conference is one of the many support services offered by Black Creek to benefit its users. Each year Black Creek staff share new features, highlight best practices in using SallyPort® for daily jail management, review performance benchmarks for potential improvement, and collaborate with attendees on ideas for future upgrades. Participants are encouraged to share tips, brainstorm solutions to common operational issues, and develop contacts.

This year at SPUG, Black Creek previewed SallyPort® 4.0 to users. Having highly anticipated the release of the new browser-based version of Black Creek's jail management system, conference attendees were excited to learn about its new features and user-configurable functionality which will drastically streamline and improve daily operations. The latest version of SallyPort® features complete user configurability, mobile device compatibility, workflow capabilities, intra-agency messaging, and much more.

SallyPort® 4.0 is a web-based, user-configurable, enterprise-class jail management system. While being a full-featured jail management system, its simplicity of use and user-friendly interface makes the process of booking and detention as fast and easy as possible. SallyPort® 4.0 works seamlessly with records management systems and other third-party applications promoting information sharing and automating many of the booking and record-keeping tasks of any size detention facility. From intake to release, SallyPort® helps ensure due process and realize higher levels of efficiency in daily operations. Learn more about [SallyPort® 4.0 Jail Management System.](#) >
