## Cobb County Jail Awards Black Creek Detention Center Security System Upgrade

Dayroom at the Cobb County, Georgia Adult Detention Center

Black Creek is pleased to announce that it has been awarded the Cobb County, Georgia Adult Detention Center Expansion/Security System Upgrade Project. The upgrade encompasses the Cobb County ADC Building “A” facility, which was built in 1987 and has a capacity of 1,321 beds.

The project includes the demolition of existing control room graphic panels, door relays, intercom and paging equipment. Black Creek will install new Super Display Touchscreen

Workstations, Programmable Logic Controllers, Door Relays, Intercom/Paging Equipment, Utility Control Relays for lighting/television control, and new CCTV equipment for the building. The upgrade will also include an uninterruptible power supply to provide backup power to the new head-end equipment. Additionally, the Security System Upgrade will include the installation of wireless access points and barcode stations for mobile-based watch tour and dayroom control systems throughout the housing units in the building.

Black Creek Integrated Systems has successfully installed its SuperDisplay Touchscreen Security System in other buildings across the 11-acre detention center – the expanse of which comprises a total bed capacity of 3,077. The system, in its entirety, includes physical locking and control, CCTV camera call-up and display, intercom control, card access, mobile-based watch tour/dayroom control, and a cutting edge video visitation system that allows for both on and off-site inmate visitation. Once complete, the renovation will seamlessly integrate the Building “A” facility with the existing Black Creek Super Display System currently operational at the Cobb County ADC.

### More about Black Creek ISC

Black Creek Integrated Systems is a turn-key source for modern, Touchscreen-based, correctional facility security control systems and security management software solutions that reduce the cost of corrections. Black Creek focuses only on the corrections market – installing integrated security and records management solutions in jails, prisons, courthouses and government facilities across the nation.
