Jefferson County Awards Black Creek with Bessemer Jail Security System Upgrade

[The Bessemer Jail; Bessemer, Alabama](#)

Black Creek is pleased to announce that it has been awarded a contract to upgrade the Security Control System at the Jefferson County Jail in Bessemer, Alabama. Black Creek installed the original Security Control System in 1998.

The Bessemer Jail was originally built with a capacity of 244. The recent addition of a 3rd floor increased the total capacity to 400.

The Black Creek Security System upgrade will include installation of state-of-the-art touchscreen control consoles, new intercom stations,

new locking controls, and new CCTV monitors; replacement of existing Programmable Logic Controllers (PLCs), and programming enhancements. The upgrade will improve the officers' control throughout the facility, while increasing the operational efficiency. It will also ensure a greater degree of safety for inmates, officers, and visitors to the jail.

More about Black Creek ISC

Black Creek Integrated Systems is a turn-key source for modern, Touchscreen-based, correctional facility security control systems and security management software solutions that reduce the cost of corrections. Black Creek focuses only on the corrections market – installing integrated security and records management solutions in jails, prisons, courthouses and government facilities across the nation.
