Black Creek Partners with Hexagon Safety & Infrastructure to Offer Jail Management System

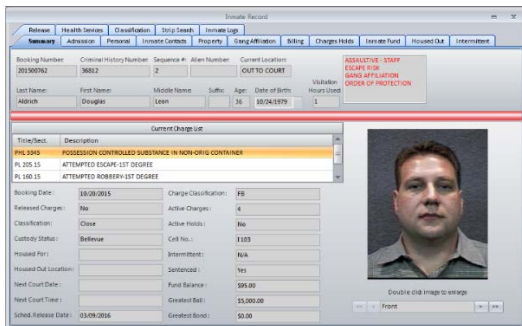

Black Creek is pleased to announce it has signed a strategic partnership agreement with Hexagon Safety & Infrastructure, (formerly Intergraph Security, Government & Infrastructure), the leading global provider of public safety and security solutions that helps protect 1 in 12 people worldwide.

Through the partnership, Hexagon will be providing [Black Creek's SallyPort® JMS](#) to law enforcement and corrections agencies in the U.S. and Canada, alongside Hexagon's [Intergraph Computer-Aided Dispatch \(I/CAD\)](#), a suite of industry-leading incident management software, and [inPURSUIT WebRMS](#), a cloud-based records management system (RMS).

With seamless integration from CAD to RMS to JMS, the combined solution will facilitate the exchange of critical information within the criminal justice system, such as between patrol, records and detention divisions of municipal and county governments.

"This partnership provides customers with a fully integrated and comprehensive solution, combining the best incident, records and jail management software available," said David McDonald, vice president and general manager, U.S. public safety, Hexagon Safety & Infrastructure. "From the initial 911 call, through the officer writing a report, to booking of the suspect, this integrated solution will help enhance agency efficiency and performance."

Black Creek's Sallyport® JMS displays Inmate Summary at a glance.

[Black Creek's SallyPort® JMS](#) is the first full-featured, Windows®-based, jail management system specifically designed for municipal and county jails. Sallyport JMS accurately maintains inmate records and saves administrative time and costs while meeting or exceeding mandatory reporting requirements.

"Black Creek is proud to join Hexagon Safety & Infrastructure's list of partners and work alongside it to provide jails with the best information ecosystems possible," said I.E. Newton, president, Black Creek. "The combination of Black Creek's innovation and experience in the corrections market and Hexagon's industry leading public safety software and professional services creates a win-win for city and county governments."
