# Black Creek Completes SallyPort© Jail Management System Installation at Saratoga County, NY Correctional Facility

INTERIOR OF SARATOGA COUNTY CORRECTIONAL FACILITY

Birmingham, AL – April 18, 2016 - Black Creek has successfully installed its SallyPort© Jail Management Software (JMS) in the Saratoga County Correctional Facility. The process took less than 60 days from purchase order to go live. The jail is a 255-bed facility located in Ballston Spa, New York, with average bookings of 1,700 per year. Saratoga County is now connected to Black Creek's SPIDEX© (SallyPort© Inmate Data Exchange) network of 34 New York Jails which allows those agencies to send and receive inmate information between linked facilities. Black Creek converted legacy data in just two days.

Per Colonel Rich Emery, Saratoga Co. Corrections Administrator: "Kudos to the Black Creek staff for making the transition from our jail management systems to SallyPort© a positive experience. During and after the installation of SallyPort©, the Black Creek staff have been very responsive and readily available to answer questions or resolve issues. The next phase of our project will be to integrate SallyPort© with Black Creek's security system."

The installation of the JMS will save the jail money by decreasing the administrative time needed to manage inmate records. SallyPort© provides an array of features that you would expect to find in a sophisticated jail management package, including shift log, digital imaging, medical tracking, biometric identification, DNA sample tracking and much more.

In the near future, Black Creek will also be installing its Super Display© Touchscreen Security System and providing its mobile Personal Detention Assistants™ (PDAs) which will be integrated with the new JMS. This will make Saratoga County fully integrated with inmate records, thus improving the safety of staff and visitors. The system upgrade will make security control easier and save the facility money by decreasing maintenance costs and increasing staff efficiency.

**More about SallyPort© Jail Management System**

SallyPort© is a full-featured electronic inmate records management system designed for city and county jails that accurately maintains inmate records with the capacity to meet or exceed all mandatory requirements of any state or jurisdiction. Learn more about Black Creek's SallyPort© >
