Black Creek Names Simon Waterman New Field Operations Manger

Birmingham, AL – July 19, 2018 – Simon Waterman has been appointed as Black Creek's new Field Operations Manager. He brings over 30 years experience in the field of corrections and construction management to his new role.

Mr. Waterman began his career as a maintenance technician and rose through the ranks to become the Assistant Director of Support Services at the Miami-Dade Corrections and Rehabilitation Department. As Assistant Director, he oversaw the activities of the Capital Construction Division, Inmate Services Division, Professional Compliance Division, Boot Camp, Fire Safety Bureau and Monitored Release. As Division Chief of the Construction Management Division, he was responsible for directing the activities of the MDCR Capital Budget Improvements and Development Program and Facilities Management Bureau. This entailed the coordination of physical plant services; capital projects; life safety; correctional integrated security systems; design construction activities; design, development and transition of the department's mental health units; oversight of the Master Plan for the Department; and the 40-year recertification of facilities, as well as other comprehensive capital projects.

As Field Operations Manager, Mr. Waterman will be utilizing experiences gained in previous correctional facility and construction projects.

More about Black Creek ISC

Black Creek Integrated Systems is a turn-key source for modern, touchscreen-based, correctional facility security control systems and security management software solutions that reduce the cost of corrections. Black Creek focuses only on the corrections market – installing integrated security and records management solutions in jails, prisons and courthouses across the nation.
