Broome County Family Court Awards Black Creek Contract to Upgrade CCTV and Touchscreen Control System

Birmingham, AL – March 29, 2021 – Black Creek has been awarded a contract to upgrade the existing Black Creek [Super Display®](#) Touchscreen Security Control System at the Broome County Family Courts, located within the Public Safety complex in Binghamton, New York. Broome County has utilized Black Creek security control systems in the Jail and Court since 1995.

Black Creek will replace the existing touchscreen control station with the latest version, utilizing the Windows® 10 operating system and Black Creek's latest touchscreen control software. The project also includes furnishing and installing new server computers and a new secure, high-speed VPN appliance for remote diagnostics and support via the Internet. In addition, Black Creek will also replace the existing Vicon CCTV video management system, which has been designated End-of-Life by the manufacturer, with a new state-of-the-art Bosch Video Recording and Management System. Black Creek will also furnish and install new encoders to digitize video from the existing analog cameras. The existing card access control administrative workstation will also be replaced with a new computer utilizing the latest access control software.

The new Black Creek system will improve the safety of staff and visitors with its enhanced functionality that the current control system does not provide. Each Super Display® Touchscreen station features HD LCD monitors that display all the facility's security controls and a CCTV camera call-up and video display. An officer can easily select different camera viewpoints, control facility utilities, and more. The system upgrade will make security control easier and save the facility money by decreasing maintenance costs and increasing staff efficiency.

More about Black Creek ISC

Black Creek Integrated Systems is a turn-key source for modern, Touchscreen-based, correctional facility security control systems and security management software solutions that reduce the cost of corrections. Black Creek focuses only on the corrections market – installing integrated security and records management solutions in jails, prisons, courthouses and government facilities across the nation.
